

CALL FOR PAPERS

ICCP 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCP 2022 : International Conference on Chemistry of Proteins is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Chemistry of Proteins. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Protein chemistry
Protein dynamics
Amino acid chemistry
Neutral amino acids
Acidic amino acids
Basic amino acids
Properties of amino acids
Chemical reactions
Biological importance of proteins
General properties of proteins

Denaturation of proteins
Structure of proteins
Classification of proteins
Protein folding and protein misfolding
Protein misfolding diseases
Amino acid and peptide chemistry
Transcription and translation
Post-translational modifications
Classical analytical methods
In-gel proteolysis
