

CALL FOR PAPERS

ICEEA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEA 2022 : International Conference on Environmental Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced treatment of water and secondary effluents
Advances in biological, physical and chemical processes
Aesthetic quality of drinking water (taste, odors)
Air emission trading
Air pollution and control
Anaerobic treatment
Atmospheric modelling and numerical prediction
Atmospheric physics
Biodegradation of hazardous substances
Biodiversity conservation
Bio-engineering
Biofuels
Carbon capture and storage

Clean technologies
Climate and climatic changes
Control technologies
Deforestation
Disinfection and disinfection by-products
Economic instruments
Eco-technology
Effect of distribution systems on potable water quality
Emission sources
Environmental dynamics
Environmental restoration and ecological engineering
Environmental Science and Technology
Environmental sustainability
