

# CALL FOR PAPERS

**ICESC 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESC 2022 : International Conference on Effects of Soil Compaction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Effects of Soil Compaction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Soil compaction  
Compaction methods  
Effects of soil compaction  
Test methods in laboratory  
Compaction and general principles  
Standard proctor test  
Factors affecting compaction  
Modified proctor test  
Structure of compacted clay soil  
Effect of compaction on cohesive soil properties  
Field compaction

Specifications for field compaction  
Determination of field unit weight of compaction  
Compaction of organic soil and waste materials  
Special compaction techniques  
Causes, concerns and cures  
Soil improvement  
Theory of compaction  
Properties and structure of compacted fine grained soils  
Field compaction equipment and procedures  
Field compaction control and specifications
