

CALL FOR PAPERS

ICETSA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETSA 2022 : International Conference on Electrical Traction Systems and Automation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Traction Systems and Automation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electronics, Information and
Control Systems
Communication Systems
Information and Communication
Technology
Sensors, Measurement and
Observation Technique
Intelligent Systems and Approach
Information Technology Application
Control Theory and Application

Electrical Traction Systems and
Control
Electromagnetic and Applied
Superconductivity
Industrial Process Control and
Automation
Power Electronic Converter
Topologies
Power Electronics in Transportation
Motion Control, Adjustable Speed
Drives and Robotics
Power Electronics in Smart Grid
Technologies
