

CALL FOR PAPERS

ICFG 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFG 2022 : International Conference on Fractal Geometry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fractal Geometry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fractal geometry
Fractals' properties
Fractal transformations
Complex dimensions
Analysis on fractals
The fractal geometry of nature
Dynamics
Mathematical physics

Probability theory
Calculus of variations
Fourier analysis
Partial differential equations
Complex analysis
Number theory
Potential theory
