

CALL FOR PAPERS

ICFPA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPA 2022 : International Conference on Food Processing and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Processing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food processing	Trends in modern food processing
Transformation of raw ingredients	Health
Food processing technology	Hygiene
Food processing systems	Efficiency
Analysis	Industries
Food quality	Mincing and macerating
Manufacturing	Liquefaction, emulsification and cooking
History	Produce marketable food products
Benefits and drawbacks	Food preservation
Benefits	Food preservation methods
Drawbacks	Food preservation techniques
Performance parameters for food processing	Traditional techniques
De-agglomerating batter mixes in food processing	Food preservation technologies
