

CALL FOR PAPERS

ICFRMDA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFRMDA 2022 : International Conference on Flood Risk Management and Damage Assessment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Flood Risk Management and Damage Assessment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|--|------------------------------------|
| Flood risk management | Flood forecasting |
| Characterizing the flood hazard | Flood vulnerability |
| Probability of floods and storms | Urban flood modelling |
| Climate change | Flood risk assessment and recovery |
| Performance and behavior of flood defenses | Storm surge modelling |
| Hazard analysis and modelling | Environment assessment |
| Flood management | Climate change impact |
| Flood warning | Socio and economic impact |
| Flood response | Innovative approaches |
| Flood risk adaptation | Flood case studies |
| Flood protection - products and processes | Emergency preparedness |
| Flood impact on health | Critical infrastructure |
| Flood risk modelling | Flood damage assessment |
