

# CALL FOR PAPERS

**ICGISAA 2022**  
**Jun 21-22, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGISAA 2022 : International Conference on GIS Applications for Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of GIS Applications for Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

GIS in agriculture  
Agricultural science and GIS  
Global warming, crop production and GIS  
Land use planning and GIS  
GIS support for precision agriculture  
GIS services and agricultural farm Mapping  
GIS, GPS, and remote sensing technologies  
Agribusiness grows with crop-specific maps  
Farm design and planning  
Farm advisor and staff meetings  
Providing clear instructions to staff and contractors  
Identification of farm assets and hazards to staff and contractors

Accurate measurements of paddock sizes for ordering products such as fertilizer and seed  
Advanced Surveying with GIS applications  
Natural resource ecology and habitat management  
Environmental impact analysis and management  
Environmental planning  
Precision farming  
Advanced weed management  
Crop physiology  
Advanced vegetable science  
Insect pest management  
Cropping systems  
Advanced surveying with GIS applications
