

CALL FOR PAPERS

ICICLC 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICICLC 2022 : International Conference on Inorganic Chemistry and Liquid Crystals is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Inorganic Chemistry and Liquid Crystals. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Inorganic materials science,
engineering and technology
Inorganic chemistry of materials
Molecular inorganic
superconductors.
Molecular inorganic magnetic
materials
Metal-containing materials for
nonlinear optics
Inorganic intercalation compounds
Biogenic inorganic materials
Clay chemistry
Polymeric coordination complexes
Metal-containing liquid crystals
Precursors for electronic
materials
Inorganic chemistry
Bioinorganic compounds

Characterization of inorganic
compounds
Cluster compounds
Coordination compounds
Crystallographic aspects of
materials
Descriptive inorganic chemistry
Industrial inorganic chemistry
Inorganic biochemistry
Kinetics of complex formation
Kinetics of hydrolysis of complex
compounds
Main group compounds
Main group elements and
lanthanides
Mechanistic inorganic chemistry
Molecular symmetry group theory
