

CALL FOR PAPERS

ICICS 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICICS 2022 : International Conference on Internet Communication and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Internet Communication and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Internet application and technology	Broadband access technologies
Internet communication	Application agents
Advanced communication systems	Boundary issues of internet security
Internet communication software and software engineering	Database management
Social media and social networks	Data models for production systems and services
Data science and social media analysis	Artificial intelligence and expert systems
Advanced e-systems and applications	IPSEC quality of service
Types of internet communication systems	Knowledge management
Future of internet communication	Embedded systems
Internet technologies	Defence systems
Internet architecture	Infonomics and e-technology
Internet of things	Infonomics
