

CALL FOR PAPERS

ICMEA 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEA 2022 : International Conference on Molecular Enzymology and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Enzymology and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular enzymology
Designing of enzymes
Synthesis of enzymes
Enzyme mechanisms
Bio molecular engineering
Enzyme expression
Chemical catalysis
Protein structure

Simple enzyme kinetics
Coenzymes
Effects of inhibitors and pH
Complex kinetics and cooperativity
The analysis of enzyme mechanisms
by means of fast reaction
techniques
Enzyme mechanisms
Practical enzyme kinetics
