

CALL FOR PAPERS

ICMGCL 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMGCL 2022 : International Conference on Mobile Geospatial Computing and Limitations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Geospatial Computing and Limitations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Mobile geospatial computing
- Geospatial computing in mobile devices
- Geospatial analysis
- Mobile geomatics
- Geospatial information technologies
- Traditionally geospatial computing
- Geospatial information technologies for mobile field data collection
- Capturing and processing geospatial information in the field
- Local processing of geospatial information on mobile devices
- Cloud-based geospatial computing
- Developing mobile geospatial web applications
- Positioning
- Presentation
- Spatial selection
- Environment model
- Mobile geospatial applications
- Local visibility model
- Occlusion detection
- Geospatial user interfaces
- Limitations
