

CALL FOR PAPERS

ICMHCL 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMHCL 2022 : International Conference on Material Handling, Constructions and Logistics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Material Handling, Constructions and Logistics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Material Handling, Constructions
and Logistics
Assembly and Assembly Systems
Automation in Construction and of
Earthmoving
Bulk and Powdered Material Handling
Technology
Construction and Urban Machinery
and Equipment
Container Units and Container
Equipment
Control Techniques and Control
Systems
Conveyor Technique and Conveyor
Machines
Design and Analysis of Supporting
Steel Structures
Distribution Centers and Automation
in Warehousing
Dynamics of machines and
mechanisms
Eco Design
Elevators and Escalators

Failure Analysis and Prevention
Forestry Machinery and Equipment
Hoisting and Transport Machinery
and Equipment
Industrial Robots and Manipulators
Industrial Vehicles, AGVS
Inspection, Modification and
Maintenance of Equipment
Intelligent Material Handling
Systems and Machines
Intermodal Transport Systems and
Logistics
Logistics and Supply Chains
Machinery and Equipment
Material Flow and Facilities
Layout
Material Handling Facilities and
Systems
Mechatronics and Information
Technologies
