

CALL FOR PAPERS

ICMNS 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMNS 2022 : International Conference on Molecular Nanotechnology and Nanotechnology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Nanotechnology and Nanotechnology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanotechnology
Physics in different sciences
Electromagnetism
Chemical physics
Dark matter physics
Plasma physics
Condensed matter physics
Experimental analysis of physics
Molecular nanotechnology
Implications of nanoscience
Study of nanotechnology
Nanomaterials and their uses
Nanoelectronics and nanolithography

Invention of scanning and tunneling of microscope
Quantum electrodyamics
Artificially produced plasma
Nanomaterials
Enhanced hydrogen sensing
Nano-alumina
Aco3-epoxy composite coating
Nanostructured platforms
Nanotube films
Nanoplatelet mos2 species
Silicon nanowires
Metallic nanoparticles
Nano thin films
