

CALL FOR PAPERS

ICONAM 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICONAM 2022 : International Conference on Optical Nano-Antennas and Modeling is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Optical Nano-Antennas and Modeling. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Optical nanoantennas
Plasmonic nanoantenna
Dielectric nanoantenna
Novel all-dielectric and hybrid
nanoantennas
Nanoantenna assisted PL emission
enhancement
Purcell effect
Strong coupling of excitons with a
single nanoantenna

Nanoantenna enhanced optical
nonlinearity
Strong coupling
Excitonic resonances
High harmonic generation
2D transition metal
dichalcogenides
Modeling of optical nanoantennas
