

CALL FOR PAPERS

ICSABPC 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSABPC 2022 : International Conference on Structural Adhesive Bonding and Processing Considerations is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Adhesive Bonding and Processing Considerations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Structural adhesive bonding
Structural adhesives and their performance
Processing considerations
Polyurethane structural adhesives
Structural silicone adhesives
Anaerobic and cyanoacrylate adhesives
Acrylic structural adhesives
Nanoparticle reinforcement in structural adhesives
Improvements in bonding metals
Advances in bonding plastics
Bonding of polymer matrix composites
Joint design and fabrication techniques

Life prediction for bonded joints in composite material
Adhesive joint design using fracture mechanics
Testing adhesively bonded composites
Testing adhesive joints
Environmental effects and durability of adhesives
Adhesive joints for fatigue and creep load conditions
Bonding at high and low temperatures
Bonding in wet conditions
Bonding in hostile chemical environments
Safety, environmental and economic aspects
Future trends
