

CALL FOR PAPERS

ICSDCE 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSDCE 2022 : International Conference on Structural Design and Construction Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Structural Design and Construction Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Construction engineering	Life cycle properties of
Designing, planning, construction,	constructed facilities
and management of infrastructures	Estimating and cost control
Construction procedures and	Planning and scheduling
methods	Construction labor productivity
Construction safety	Asphalt materials
Project strategic management	Alternative methods for project
E-business construction solutions	delivery
Constructability of the design	Construction computer applications
The design-construction	
interrelationship
