

CALL FOR PAPERS

ICTTM 2022
Jun 21-22, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICTTM 2022 : International Conference on Textile Testing Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Textile Testing Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Textile testing
Textile testing methods
Textile quality control
Textile quality standards and testing procedures
Testing and quality management
Fibre length
Fibre fineness
Hairiness of yarns
Tear strength of fabric
Bursting strength of fabrics
Abrasion and pilling test of fabrics
The selection of samples for testing
Moisture relations and testing

Fibre dimensions and quality
Yarn dimensions
Fabric dimensions and properties
The tensile testing of textiles
Evenness testing
Miscellaneous testing instruments
Physical and mechanical properties of textile materials
Structural mechanics of fibers, yarns, and fabrics
Quality and quality control in textile industry
Quality parameters of woven, knitted and non-woven fabrics
Garment manufacturing process
Sample section
Marker making
