

CALL FOR PAPERS

ICMBE 2022
Jul 22-23, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBE 2022 : International Conference on Marine Biology and Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Biology and Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biological Marine Sciences
Climate Change and Global Warming
Coastal & Marine Resources and the Environment
Environmental and Marine Resources Management
Fish Resources and Engineering
Fish, Wildlife and Marine Resources
Geological, Environmental, and Marine Sciences
Geological Sciences and Marine Geology
Living Marine Resources

Marine and Atmospheric Sciences
Marine Biology and Biotechnology
Marine and Coastal Resources Management
Marine and Electrical Engineering
Marine Environments and Resources
Marine Hydrodynamics
Marine Law and the Regional and International Problems and Difficulties
Marine Resource Development and Protection
Marine Resources, Industry & Environment
