

CALL FOR PAPERS

ICMVM 2022
Jul 29-30, 2022
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMVM 2022 : International Conference on Machine Vision and Mechatronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Machine Vision and Mechatronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Deep learning
Deep vision
3D acquisition
Embedded vision
Pattern recognition
Registration
Computational photography
Volume models and point clouds
Natural user interface and gestures

Vision computation challenges
Mobile vision applications
Vision in autonomous systems
Medical applications
Classification solutions for vision
Image formation, optics and sensors
Machine learning
Video search and retrieval
