

CALL FOR PAPERS

ICEMB 2022
Jul 12-13, 2022
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMB 2022 : International Conference on Engineering Microbial Biosensors is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Engineering Microbial Biosensors. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Microbial biosensors
Applied microbiology
Technology and applications of microbial biosensor
Microbial biosensors for environmental monitoring
Sensing techniques
Recent progress in microbial biosensors

Advantages of using microorganisms as biosensing elements
Immobilization of microorganisms
Electrochemical microbial biosensor
Optical microbial biosensor
Microbial research and nano-biosensors
Bioluminescent microbial biosensors
