

CALL FOR PAPERS

ICMDAC 2022
Jul 22-23, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMDAC 2022 : International Conference on Museum Design and Architectural Considerations is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Museum Design and Architectural Considerations. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Museum architecture and design
Contemporary trends in museum architecture
Soviet museum architecture
Museum buildings
Structural museum design
Analysis of museum design projects
Innovative museum design and construction planning
Sustainable museum planning, design and construction
Sustainability in museum design
Principle and secondary aesthetic design factors
Aesthetic guidelines for museum design
Museum architecture and design codes and standards

Aesthetics considerations in museum architecture and design
Environmentally compatible museum architecture and design solutions
Impacts of innovative materials in museum architecture and design
Architecture, construction and environmental engineering
Structure plans, specifications and estimate development
Structure types and components
Principles of museum architecture and design
Functional clarity
Scale and proportion
Order and balance
Simplicity and continuity
Site/environment integration
