

CALL FOR PAPERS

ICNMFA 2022
Jul 29-30, 2022
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMFA 2022 : International Conference on Nano-Mechatronics and Future Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano-Mechatronics and Future Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano-mechatronics
Integration of micro and nano
electromechanical systems and
electronic technologies
Nanosensors and actuators
Nanotube-based transistors
Nano-control and nano-measurement
Nano design and manufacturing
Micro-nano robotics
Electronic structure calculations
for nano materials

Applications
Applications in transportation
Applications in integrated
circuits
Applications in building and
facilities
Applications in medicine
Applications in aerospace
Microscopic applications
Future applications
