

CALL FOR PAPERS

ICAFFMCC 2022
Jul 15-16, 2022
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAFFMCC 2022 : International Conference on Adaptation of Forests and Forest Management to Climate Change is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Adaptation of Forests and Forest Management to Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adaptation of forests to climate
change
Forest management for climate
change
Climate change studies for forests
Adaptation response
Adaptive management

Disturbance
Resilience
Sustainable forest management
Scenarios and case studies
