

CALL FOR PAPERS

ICEEMB 2022
Jul 22-23, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEMB 2022 : International Conference on Ecology, Evolution and Marine Biology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecology, Evolution and Marine Biology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biology
Marine life
Evaluation
Process of speciation
Microscopic life
Taxonomy of marine organisms
Marine ecosystems
Populations and ecology
Distribution of organisms in a population
Population growth
Biological interactions
Conservation of marine biodiversity
Conservation of marine environment

Conservation of terrestrial environment
Human impacts on the marine environment and management
Environmental factors that affect marine organisms
Plants and algae
Invertebrates
Fungi
Vertebrates
Fish
Reptiles
Birds
Mammals
Marine habitats
Intertidal and near shore
