

CALL FOR PAPERS

ICWCP 2022
Jul 22-23, 2022
Berlin, Germany

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWCP 2022 : International Conference on Wood Construction and Problems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wood Construction and Problems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wood construction
Wood construction design
Design of wood framing
Wood materials and properties
Wood species
Lumber sizes
Lumber grades
Structural wood panels
Lumber design values
Structural evaluation
Structural safety checks
Frame construction
Timber construction

Fastenings, connections and
notching
Problems
Fire protection requirements
Innovative wood products and
building systems
Prefabricated systems
Cross laminated timber
Building techniques
Grade marking
Lumber seasoning
Protection of materials
Platform frame
Balloon frame
Fastenings
