

CALL FOR PAPERS

ICBM 2022
Jul 26-27, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBM 2022 : International Conference on Bioinformatics and Metagenomics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bioinformatics and Metagenomics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Metagenomics
Environmental genomics
Ecogenomics
Community genomics
Metagenomic analysis
Functional metagenomics

Metagenomics and bioinformatics in
microbial ecology
Metagenomic and whole transcriptome
studies
Bioinformatic analysis
Data generation
Bioinformatics methods for data
analysis and statistical modeling
Bioinformatics and statistical
tools for comparative metagenomics
