

CALL FOR PAPERS

ICCEMA 2022
Jul 26-27, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEMA 2022 : International Conference on Computer, Electronics, Mechanical and Aeroengineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer, Electronics, Mechanical and Aeroengineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

| | |
|--|------------------------------------|
| Aeroengineering | High-speed aerodynamics |
| Aeroengineering and management | Industrial aerodynamics |
| Airport management and operations | Integrated systems design |
| Aircraft maintenance management | Managing creativity and innovation |
| Aircraft structural analysis and design | Managing innovative change |
| Aircraft vibration and aeroelasticity | Marketing management |
| Aviation logistics and supply chain management | Operations management |
| Aircraft propulsion and gas turbine engines | Project management |
| Avionics and aircraft systems | Propulsion and turbomachinery |
| Computational fluid dynamics | Safety management |
| Contemporary issues in human resource management | Transport management |
| Flight mechanics | Turbomachinery |
| Fluid mechanics | |
