

CALL FOR PAPERS

ICDBA 2022
Jul 26-27, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDBA 2022 : International Conference on Driver Behavior Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Driver Behavior Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Driver behavior modeling
- Risk assessment
- Time response
- Road safety
- Simulation-based safety evaluation

- Driver behavior characterization using multiple dynamic models
- Dynamic modeling of driver control strategy
- Driver behavior analysis and route recognition
- Choice dynamics in traffic networks
- Monitoring and improving driver behavior
