

CALL FOR PAPERS

ICMPE 2022
Jul 12-13, 2022
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMPE 2022 : International Conference on Molecular Phylogenetics and Evolution is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Phylogenetics and Evolution. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Phylogenetics	Sequence search and clustering
Molecular phylogenetics	Function prediction
Phylogenetic tree	Motif discovery
Molecular phylogenetics and evolution	Functional site recognition in protein
Genome assembly	Rna and dna sequences
Phylogenetic relationship	Phylogeny estimation
Molecular evolution, phylogenetics and epidemiology	Models of evolution
Genome and chromosome annotation	Comparative biological methods
Gene finding	Population genetics
Alternative splicing	Structure matching, prediction, analysis and comparison
EST analysis	Microarrays
Comparative genomics and metagenomics	Proteomics
Multiple sequence alignment	Mass spectrometry
