

CALL FOR PAPERS

ICPSAR 2022
Jul 12-13, 2022
Ottawa, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSAR 2022 : International Conference on Plant Sciences and Agricultural Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant Sciences and Agricultural Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Plant science and research
Experimental plant biology
Plant tissue culture
Plant physiology and biochemistry
Plant pathology and
plant-micro-biology
Plant breeding and molecular
breeding
Plant science and natural products
Plant genome sciences
Medicinal and aromatic plant
sciences
Plant synthetic biology and plant
transcriptome
Grains, forages, industrial and
alternative crops
Biochemistry, bioinformatics,
biophysics, and biotechnology

Cell biology, cellular and
developmental biology
Development and growth regulation
Entomology, ethnobotany,
ethnopharmacology, and
ethnoveterinary
Evolutionary biology, genetics and
genomics
Horticulture (fruits, vegetables,
ornamentals)
Microbiology, molecular biology,
and morphology
Nutrition, pathogen resistance, and
pest management
Photosynthesis, phylogeny,
hylogeography, and physiology
Phytochemistry, plant breeding,
plant genetics, and plant
pathology
Plant production systems,
population genetics, and signal
transduction
Stress physiology, symbiosis, and
systems biology
Taxonomy, water relations, gas
exchange, and weed science
