

CALL FOR PAPERS

ICERASAE 2022
Jul 19-20, 2022
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICERASAE 2022 : International Conference on Ecological Restoration of Aquatic and Semi-Aquatic Ecosystems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Restoration of Aquatic and Semi-Aquatic Ecosystems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Effective restoration of aquatic ecosystems

Aquatic ecosystem restoration monitoring, planning and management

Ecological restoration of aquatic and semi-aquatic ecosystems

Ecological restoration in coastal areas

Computer models of fish species distribution

Aquatic plant management

Assessment and management of ecological integrity

Artificial habitats and the restoration of degraded marine ecosystems

Ecological and social dimensions of ecosystem restoration

Methods for targeting rivers and streams for protection

Stream restoration for aquatic invertebrates

Land management and aquatic ecosystems

Recolonization of natural species

Agricultural stream restoration

Restoration of native fish in streams
