

CALL FOR PAPERS

ICEEET 2022
Jul 08-09, 2022
Prague, Czechia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEET 2022 : International Conference on Ecomechatronics and Energy Efficient Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecomechatronics and Energy Efficient Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecomechatronics	Active vibration damping
Energy efficient electrical motors	Rapid control prototyping
Variable frequency drives	Machine control
Variable hydraulic pumps	Energy consumption minimization
Energy storage technologies	Energy management of energy storage systems
Design methods and tools	Model-based control
Energetic simulations	Self-learning control
Energy demand optimization	Optimal machine control
Vibro-acoustic analysis
