**Jul 22-23, 2022**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCEES 2022 : International Conference on Civil Engineering and Earth Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Engineering and Earth Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil and Structural Engineering  
Bridge Engineering  
Building Structure and Bridge Engineering  
Building Technology  
Cartography and Geographic Information System  
Coastal Engineering  
Computational Mechanics  
Construction and Control  
Detection and Transformation  
Disaster Prevention and Mitigation  
Engineering Management  
Environment-Friendly Construction and Development  
Geological Engineering

Geotechnical Engineering  
Harbor Engineering  
Heating, Gas Supply, Ventilation and Air Conditioning Works  
Hydraulic Engineering  
Material Quality and Control  
Metallic Structures  
Monitoring and Control Of Structures  
Operation and Maintenance  
Project Management  
Reliability and Durability of Structures  
Road, Bridge and Railway Engineering  
Safety and Monitoring  
Sanitary and Ground Water Engineering
