

CALL FOR PAPERS

ICEIA 2022
Jul 22-23, 2022
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEIA 2022 : International Conference on Environmental Informatics and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Informatics and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental informatics
Remote sensing of environment
Applied ecosystem modeling
Environmental spatial data analysis
GIS and natural resource applications
GIS and landscape modeling
Agricultural and environmental informatics
Cross-border collaboration and issues and environmental informatics

Environmental modelling and simulation
Applications of geographical information systems
Environmental health, consumer protection and quality of life
Risk assessment and resilience
Software tools and environmental databases
Environmental communication, open access to data
Energy informatics and environmental informatics
Design, sustainability and green software engineering
