

CALL FOR PAPERS

ICAAAVM 2022
Jul 05-06, 2022
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAAVM 2022 : International Conference on Advanced Aerodynamics and Air Vehicle Mechanics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Aerodynamics and Air Vehicle Mechanics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space missions, systems, and architecture	Software and computing
Antenna, RF/Microwave systems and propagation	Diagnostics, prognostics, and health management
Communication and navigation systems	Ground and space operations
Aerodynamic forces and structural flexibility	Management, systems engineering and cost
Flight software engineering and testing	Unmanned and manned spacecraft systems
Observation systems and technologies	Materials for spacecrafts
Remote sensing	High level panels
Spacecraft avionics systems, subsystems and technologies	Aerodynamic's fundamental concepts
Spacecraft, launch vehicle systems and technologies	Aeronautical engineering
Air vehicle systems and technologies
