

# CALL FOR PAPERS

**ICBEPPD 2022**  
**Jul 15-16, 2022**  
**Stockholm, Sweden**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBEPPD 2022 : International Conference on Biogas Engineering, Production and Plant Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biogas Engineering, Production and Plant Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biogas engineering  
Biogas plant design  
Biogas production and technologies  
Advances in biogas technology  
Planning and construction of biogas plants  
Biogas generation, purification and bottling development  
Biogas science and technology  
The production of biogas  
Composition of the extracted biogas  
Generation of electricity and heat  
Feeding biogas into the natural gas grid

Small-scale biogas technologies  
Applications and environmental impacts of biogas  
Industrial waste biogas  
Large scale biogas production and challenges  
Biogas technologies  
Market potential of biogas reactors  
Biogas from agriculture waste  
Biogas production from algae  
New and possible substrates for biogas production  
Measuring and upgrading biogas environment
