

CALL FOR PAPERS

ICDTTD 2022
Jul 15-16, 2022
Stockholm, Sweden

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDTTD 2022 : International Conference on Diagnostic Tools and Technologies for Diabetes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Diagnostic Tools and Technologies for Diabetes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Prognostic marker	Recent advances in genetics of diabetes
Diabetic nephropathy marker	The Role of Incretins in Insulin Secretion
Molecular markers for both metabolic syndrome and hypoglycemia response	Diabetes: Type 1 and Type 2
Genetic lifestyle interaction in the development and prevention of diabetes	Gestational Hyperglycaemia and Diabetes
Physiology of the endocrine pancreas	Autoimmune Diabetes Mellitus
Alpha and Beta cells	Latent autoimmune diabetes of adults
Physiology of Diabetes Type 1	Idiopathic
Physiology of Diabetes Type 2	Diabetes in children
Pathophysiology of hypoglycemia	Prediabetes
Epidemiology and pathogenesis of diabetes	Immune Intervention diabetes
Diabetes and metabolic syndrome	Paediatric diabetes
Diabetic myelopathy	Monogenic Forms of Diabetes
Pathogenesis of diabetes	Neonatal Diabetes
