

CALL FOR PAPERS

ICESD 2022
Jul 19-20, 2022
Toronto, Canada

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESD 2022 : International Conference on Ecotechnologies for Sustainable Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecotechnologies for Sustainable Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Ecotechnology	Biodiversity and biological conservation
Ecological engineering and applications	Climate change
Ecotechnologies for wastewater treatment	Ecological complexity
Sustainable energy and environmental technology	Ecological economics
Ecotechnology and education	Ecological modelling
Ecotechnology for atmospheric environment	Biological invasions
Ecotechnology for water environment	Ecosystem health
Ecotechnology for 3r: reduce, reuse and recycle	Environmental policy
Ecotechnology for low-carbon society	Ecological knowledge
Ecosystem creation and restoration/ecological engineering	Coastal problems caused by upland pollution sources
Ecosystem services	Watershed/river catchment management
Ecological indicators
