

# CALL FOR PAPERS

**ICNMFA 2022**  
**Jul 29-30, 2022**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNMFA 2022 : International Conference on Nano-Mechatronics and Future Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nano-Mechatronics and Future Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nano-mechatronics  
Integration of micro and nano  
electromechanical systems and  
electronic technologies  
Nanosensors and actuators  
Nanotube-based transistors  
Nano-control and nano-measurement  
Nano design and manufacturing  
Micro-nano robotics  
Electronic structure calculations  
for nano materials

Applications  
Applications in transportation  
Applications in integrated  
circuits  
Applications in building and  
facilities  
Applications in medicine  
Applications in aerospace  
Microscopic applications  
Future applications
