

CALL FOR PAPERS

ICARGE 2022
Jul 29-30, 2022
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICARGE 2022 : International Conference on Agricultural Resources, Governance and Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Resources, Governance and Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Governance/management of agriculture on the human side
Environmental and ecological impacts of agriculture
Ecological economics applied to agriculture
Definition of "quality" in food production
Development of an adaptive eco-system approach to agriculture
Globalisation and trade liberalisation affecting agriculture
Coevolution, biodiversity and non-equilibrium systems
Issues of research relating to agriculture

The production of quality food
Ecological and green agriculture, animal welfare, pollution management
Ecological economics and heterodox approaches to complex problems
Analysis/assessment of policies in relation to agriculture/environment
Equity and gender issues in agriculture
Development, environment and agriculture
Sustainability, agriculture and environment disciplines
