

CALL FOR PAPERS

ICHMMEA 2022
Jul 29-30, 2022
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHMMEA 2022 : International Conference on Hard Magnetic Materials for Engineering Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Hard Magnetic Materials for Engineering Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Hard magnetic materials
Hard magnetic materials and applications
Magnetic recording, memories and spintronics
Hard magnetic materials for engineering applications
Magnetic thin films
Functional hard magnetic materials
Hard magnetic particles and nanostructures
Magnetic properties of hard magnetic materials
Novel hard magnetic materials and device applications

Modeling and simulation in hard magnetic materials
Magnetism, magnet industry-product and marketing
Physical properties of hard magnetic materials
Chemical resistance of hard magnetic materials
Electrical properties of hard magnetic materials
Thermal properties of hard magnetic materials
Optical properties of hard magnetic materials
Radiation properties of hard magnetic materials
Mechanical properties of hard magnetic materials
