

CALL FOR PAPERS

ICWRTOL 2022
Jul 29-30, 2022
Zurich, Switzerland

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWRTOL 2022 : International Conference on Wildlife Radio Telemetry and Online Localization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wildlife Radio Telemetry and Online Localization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wildlife radio telemetry	Methods of radio-tagging
Animal monitoring technology	Techniques for radio-tagging
Equipment, field techniques and data analysis	Online localization of radio-tagged wildlife
Analysis of wildlife radio-tracking data	Tracking animal location and activity
Models of age-specific survival and breeding	Marine mammal tagging
Demographic estimates from radio-tagging	Wildlife control technology
Wildlife radio telemetry	GIS for wildlife management
Fish and wildlife tracking solutions	GIS for wildlife conservation
Effects of radio-tagging on breeding behavior	Satellite imagery
