

# CALL FOR PAPERS

**ICWMWG 2022**  
**Aug 16-17, 2022**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMWG 2022 : International Conference on Wave Modelling and Wave Generation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wave Modelling and Wave Generation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Wave modelling  
Numerical wave modelling  
Ocean wave modeling and forecasting systems  
Wind-wave modelling

Wave generation, calibration and analysis  
Nonlinear random and extreme waves  
Wave basin effects and mitigation  
Coupling between experimental and numerical waves
