

CALL FOR PAPERS

ICAOSR 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAOSR 2022 : International Conference on Applications of Open Source Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Applications of Open Source Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- | | |
|--|--------------------------------|
| Open source robotics | Advantages |
| Open source robotics building system | Popularity |
| Open-source robotics and process control | Uses |
| Open source humanoid robot | Robot operating system |
| Open design | Controller timing requirements |
| Open source robotics software | Interoperability |
| Open source robotics hardware | Reusability |
| Current projects | Software architecture |
| Full robot projects | Applications |
| Open-source software | Performance |
| Open-source hardware | Future directions |
