

CALL FOR PAPERS

ICCAMD 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCAMD 2022 : International Conference on Computer-Aided Machine Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer-Aided Machine Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Computer aided machine design
Computer technology for design and simulation
Design of mechanical and electromechanical devices
Engineering graphics and sketching
Materials selection and structural design
Machine elements and two-dimensional mechanisms
Fluid mechanics
Heat transfer
Industrial engineering
Leather technology
Machine design
Manufacturing processes
Mechanical maintenance

Operational research
Quality control
Solid mechanics
Textile engineering
Automated inspection
Decision support systems
Demolition/remediation
Facilities management
Intelligent control systems
Logistics
Management information systems
Robotics
