

CALL FOR PAPERS

ICGGM 2022
Aug 23-24, 2022
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGM 2022 : International Conference on Global Geophysics and Mineralogy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Global Geophysics and Mineralogy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Global geophysics
Mineralogy and petrology
Gravity and magnetic methods
Exploration seismology
Geophysical signal processing
Geological engineering and groundwater
Nuclear geophysics
Remote sensing and GIS in geomorphology
Tectonics and crustal evolution
Geophysics market
Petroleum geology
Environmental geology

Geology and mineral resources
Geological engineering
Tectonics and sedimentation
Structural geology
Exploration geophysics
Mining geology
Volcanology
Physical geology
Geomorphology
Geophysics and geodynamics
Planetary geology
Environmental geology
