

# CALL FOR PAPERS

**ICWHTDCMC 2022**  
**Aug 09-10, 2022**  
**Lagos, Nigeria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWHTDCMC 2022 : International Conference on Wearable Health Technology, Design Considerations and Major Challenges is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Wearable Health Technology, Design Considerations and Major Challenges. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Healthcare wearables  
Healthcare wearable technologies  
Wearable health technology  
Smart wearable healthcare devices  
Wearable technology and preventative healthcare  
Wearable health technology in medical arenas  
Medical technology  
Design considerations and major challenges  
Sensor technology

User friendly design  
Connectivity technology  
Healthcare wearables in clinical trials  
Wearable sensors for remote healthcare monitoring system  
Branded hospital apps in patient engagement  
Patient safety  
Engineering applications  
Future directions  
Technological perspectives
