

CALL FOR PAPERS

ICADMES 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICADMES 2022 : International Conference on Analysis and Design of Mechanical Engineering Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Analysis and Design of Mechanical Engineering Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical engineering systems	
Mechanical engineering design and analysis	
Aerodynamics, aerospace systems and technology	Aerospace and aviation engineering
Applications of AI techniques in design and manufacturing	Automotive engineering
Applied mechanics, automation and biomechanics	Dynamics and vibration
Computer aided manufacturing, design and engineering	Industrial and manufacturing engineering
Computational fluid dynamics	Material science and processing
Design and manufacturing	Mechanical and mechatronic engineering
Sustainable and green manufacturing	Mechanical and process engineering
Industrial engineering, instrumentation and control	Mechanical design
Internal combustion engines and mechanical engineering	Mechanical power engineering
Mechatronics, micro-machining and robotics	Mechatronics
Acoustics and noise control	Production technology
	Robotic, automation and control
	Solid mechanics
