

CALL FOR PAPERS

ICAESE 2022
Aug 19-20, 2022
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAESE 2022 : International Conference on Advances in Electrical Safety Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Electrical Safety Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electrical safety engineering
Electrical safety management
Electrical safety testing
Electrical failures and injuries
Electrical insulation
Circuit protection
Fire and explosion hazards

Industrial supply and distribution
Safety equipment for electrical safety
Electrical safety systems and technologies
Electrical safety culture, policy and regulations
Inherently safer design
Work practices and case studies
